

ALINEment™ Survey

100 Tufts University Collegiate Athletes

Supinate/Supinate	0
Supinate/Neutral	2
Neutral/Neutral	8
Supinate/Pronate	7
Neutral/Pronate	19
Pronate/Pronate	64

60% of the athletes had at least one severely misaligned ankle

Summary from Interviews

- Best athletes had best natural alignment
- Starters had better alignment than non starters
- Misaligned athletes had high injury rates
